DETAILED ACTION

1. Applicant's communication filed on November 14, 2005 has been carefully studied by the Examiner. The arguments advanced therein are persuasive and the rejections based upon prior art made of record in the previous Office Action are withdrawn. Claims 1-17, 19, 20 and 26-31 are pending.

Allowable Subject Matter

2. Claims 1-17, 19, 20 and 26-31 are allowed.

3. The following is an examiner's statement of reasons for allowance: As noted by the Applicant on pages 2-4 of the response, the prior art of record fails to disclose or reasonably suggest the claimed method for making a plurality of waveguide resonator devices as recited in claims 1, 14 and 31. Although Dragone discloses the step of dividing a substrate comprising a plurality of individual optical waveguide circuits, by cutting in between the individual waveguide circuits, none of the prior art of record fairly suggests dividing a precursor resonator structure to obtain a plurality of separate, functioning resonator devices by dividing the single precursor resonator structure. Therefore, claims 1-17, 19, 20 and 26-31 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
